## SECRET

## Office Memorandum • United States Government

: Acting Chief, Liaison Branch, OCD

DATE: 1 November 1948

FROM : Acting Chief, Non-IAC Desk

subject: Delay on Action Memos to Inspection and Security

- 1. Attached for your information and review are copies of a few of the older action memoranda to Inspection and Security which have not been answered.
- 2. It has been determined informally from Inspection and Security that a backlog in the Inspection and Security Division handling these clearances is the reason for these delays.
- 3. This situation has and is seriously hampering the effective operations of this Desk and to some extent is destroying the advantage gained in initial liaison contacts. It is recommended that this general situation be discussed with Inspection and Security with a view to devising some remedial action.
